16085 Class 101 Electric Locomotive

Prototype: German Railroad, Inc. (DB AG), business area Metropolitan Express Train, Inc. / DB Travel & Tourism (currently DB Long-Distance Service), express locomotive, road number 101 130-3. The locomotive looks as it did starting in 1999 for the Metropolitan Express Train.

Model: The locomotive frame and body are constructed of metal. The locomotive has a built-in digital decoder and sound generator for operation with mfx and DCC. It also has a motor with a flywheel. 4 axles powered. Traction tires. The headlights and marker lights change over with the direction of travel. Warm white LEDs are used for the lighting. The cab lighting can be controlled digitally. Length over the buffers 119 mm / 4-11/16".

Passenger cars to go with this locomotive are available under item numbers 15160 and 15161.

One-time series for Trix Club members!

Order form in the next club mailing!

15160 „METROPOLITAN“ Car Set Part 1

Model: The cars are new tooling. All of the cars have close coupler mechanisms and built-in LED interior lighting. The cab control car has triple headlights at the cab end, which change over 3 x white and 2 x red and cab lighting. Replaceable, scale skirting for the car ends is included for all the cars for operation on large radius curves. Total length over the buffers 825 mm / 32-1/2".

One-time series for Trix Club members.

Highlights:

- All cars are new tooling.
- LED interior lighting.

Only works in conjunction with electric locomotive article no.16085.

15161 „METROPOLITAN“ Car Set Part 2

Model: The cars are new tooling. All of the cars have close coupler mechanisms and built-in LED interior lighting (*only works in combination with the 15160 car set). Replaceable, scale skirting for the car ends are included for both cars for operation on large radius curves. Total length over the buffers 330 mm / 13".

One-time series for Trix Club members.

Highlights:

- All cars are new tooling.
- LED interior lighting.
