Fall New Items 2026

For even more switching fun

MINITRIX

16312 Class V 90 Diesel Locomotive

© R. Todt, Eisenbahnstiftung

Prototype: German Federal Railroad (DB) class v 90 heavy switcher locomotive. Crimson basic color scheme. Original version without metal railings on the sides. The loco looks as it did around 1967.

Use: Switching and freight trains.

Model: This is a technical variation. The loco has a built-in digital decoder and sound generator for operation with mfx and DCC. It also has a motor with a flywheel, 4 axles powered. Traction tires are fitted. The locomotive has Telex couplers front and rear that can be controlled

separately. Triple headlight and twin red marker lights change ends with direction of travel, will work in conventional operation and can be controlled digitally. The loco also has cab lighting. There are separately applied metal handrails. Additional steps can be installed below the cab if the model is used on larger track radii. Length over the buffers 89 mm / 3-1/2".

One-time series.

- **Body and chassis constructed of metal**
- **Front and rear Telex couplers can be controlled separately**
- **Cab lighting**
- **Sound**

Denmark

16960 Class MY 1100 Diesel Locomotive

Prototype: Class MY 1100 diesel locomotive of the Danish State Railways (DSB).

NOHAB general-purpose machine with a wine-red paint scheme as it looked in era III.

Use: Heavy passenger and freight trains.

Model: The loco has a built-in digital decoder and sound generator for operation with mfx and DCC. It also has a motor with a flywheel, 6 axles powered, and traction tires. Triple headlights and dual red marker lights change end with the direction of travel, will work in conventional operation and can be controlled digitally. The headlights at no. 1 and no. 2 ends can be turned off separately in digital operation. The cab lighting can be controlled digitally. Maintenance-free warm-white and red LEDs are used for the lighting.

Length over the buffers 118 mm / 4-5/8".

The NOHAB general-purpose machine with new tooling

Includes special switching lights and an oncoming train light

Length over the buffers
118 mm / 4-5/8"

The ventilation
grilles are correctly
reproduced

Prototypical representation of the roof
equipment with four roof ventilators

The loco has a built-in digital decoder and sound
generator for operation with mfx and DCC

Loco body and frame made of
die-cast zinc
